

Mojaloop Roadmap, as at 16th September 2024

(cross-hatched workstreams not yet formally adopted, but prioritised by Product Council)

Key

PoC/Pilot-Ready

Production-Ready

Candidate Workstreams For Future Adoption

1. Proxy for TCIB

2. Proxy For PAPSS / Settlement Adapter for PAPSS

3. Proxy for Nexus

4. Proxy for SWIFT

5. FX extensions for vNext

6. AISP extension to PISP/3PPI

7. Multiple alias resolution: Alias Resolution: Handling duplicate "resolutions", managing payee preferences, allowing DFSPs or payees to manage those preferences.

8. Support for domestic debit schemes for P2P/R2P

9. G2P: Extend to other forms of digital ID, beyond MOSIP

10. Language Localisation
