# [DRAFT]
Workstream Dashboard
Product Council

The Seven Phases of a Mojaloop Workstream

Product Requirements Defined	MVP Backlog Complete	DA Review	Production Backlog Complete	Development in Progress	MVP/Ready for PoC	Ready for Live Service
Post-Convening, Product Council members define the product-level requirements that the workstream is intended to address	The backlog for an MVP or pilot deployment of this workstream's outputs has been fully defined in the Mojaloop GitHub	The overall design has been presented to the Design Authority, and any changes the DA has suggested have been considered for incorporation in the backlog	The backlog for a full production deployment of this workstream's outputs has been fully defined in the Mojaloop GitHub	Development is underway; first using the MVP backlog, then moving on to the expanded, production-specific backlog items	The workstream's outputs are ready for use in a pilot or proof of concept, with limited attention to considerations of capacity or reliability	The workstream is complete; its outputs are available for production use for a live service
