Mojaloop
Releases & Core

PI-26 product council update, 7th January 2024

Sam Kummary MLF

Mojaloop Core & Releases: PI-26 Objectives

1. Publish Mojaloop v17
   - PRs review - initial reviews done, final reviews to be done before merging - done
   - QA, testing - in progress
   - Bug fixes
   - Deprecated issues addressing - include fixes but create issues for the rest - in progress
   - FX - PRs merged
   - ISO 20022 support - in progress
   - Interscheme and Proxy support - in progress
2. IaC release supporting v17
3. Finance Portal testing improvements and quality improvements
4. Hardening Mojaloop releases
5. Run a performance test on a Mojaloop deployment (deployed with IaC) and note observations
6. Next: TB integration, NextGen settlement (Future PIs)
